

Finishing off the roof ridge has never been so simple. Ease-Z engineered vented and non-vented z bars provide the fastest way to complete your standing seam roof project. These pre-cut, pre-slotted, pre-taped z bars are designed to integrate perfectly with your Drexel roof. Ease-Z come standard in 26-gauge steel and .032 aluminum and is available in 4 Heights to match our standing seam profile. Ease-Z is finished in a standard black or can be customized in one of our many other finishes. Ease-Z will not only make the installation better but will get your crew onto the next jobsite faster saving you time and money.
