Subject: Drexel Metals Announce New Facade Wall Panels

Drexel Metals is pleased to announce its latest innovation: Facade Wall Panels. The Facade HL series boasts seven unique profiles that are 1-3/8 inches in depth, allowing for endless customization and visual appeal on a building's exterior. These panels come in both 12-inch and 16-inch (nominal) widths for added versatility.

In addition, Drexel Metals is pleased to introduce the Facade BR series, featuring four profiles with a depth of 1-3/8 inches and a nominal width of 12 inches. These panels offer 87-degree rib angles and a variety of rib spacing patterns, providing even more design options for architects and builders.

For more detailed information, please refer to the Facade section of our Metal Wall Systems webpage [here](#).
